## Top Review Sites

These are the top app review sites – they review the best apps, are unbiased and offer a thorough review of all the game apps that are worth having!

1. App Shopper ([www.AppShopper.com](http://www.AppShopper.com))

This review site is ranked top for traffic, and no wonder... They have unbiased reviews and loads of content. They do freebie giveaways so make sure you subscribe to their site!

2. Touch Arcade ([www.TouchArcade.com](http://www.TouchArcade.com))

These guys just keep the content coming – with newest releases, game discussions and separate areas for iPhone and iPad app releases.

3. App Safari ([www.AppSafari.com](http://www.AppSafari.com))

Great navigation on this site makes it a winner. Their top 25 site is really useful in deciding what to buy and what to avoid because, as they say about the App Store, it's a jungle out there!

4. Best iPhone App ([www.BestiPhoneApp.co](http://www.BestiPhoneApp.co))

These guys are a niche site focussed on promoting high quality apps. Although they are not strictly 'games only' they have a couple of really good, properly addictive games. Subscribe to their site for promo code giveaways.

5. 148 Apps ([www.148apps.com](http://www.148apps.com))

Unsurprisingly, this site has a 'Top 148 List' in keeping with their name... They add a lot of value in tracking price drops of apps so keep an eye on them if there's a game you want, but can't quite afford!
